

NWT RECREATION AND PARKS ASSOCIATION

Is there someone from your community with the drive and the ability to run a Class A Pool?

Shallow Water Pool Certification

Course for Class A Pools

July 16th - July 20th in Yellowknife

The NWT Recreation & Parks Association will be hosting a Shallow Water Pool Certification Course through the Lifesaving Society. This course is designed specifically for Class A pools (a prefabricated pool erected entirely above ground for seasonal operation).

The Shallow Water Pool Certification will allow for the development of northern certified guards through basic lifesaving procedures without the rigorous deep water rescue and swimming skills required through Bronze Cross.

Prerequisites: 16 years of age or older
Literacy skills (50% of course in classroom)
Basic swimming skills (50% of course in pool)
An interest in working at a Class A Pool in the future

Deadline to apply: July 1st, 2007, space is limited

Phone: (867)777-7855 Fax: (867)777-2850

Note: The NWTRPA will cover the costs associated directly with the course and provide lunch to participants Monday through Friday. Travel to and from Yellowknife, accommodations & additional meals will be the responsibility of the individual or the community - an investment made to secure a northern Aquatics Supervisor.
